

## City of Sanford Water System Update

The boil water advisory issued on Saturday, Oct. 8 has been lifted.

Samples drawn throughout the water distribution system have determined that there has been no bacterial contamination to the water supply. **The City of Sanford's water supply is safe for human consumption.** Normal usage can resume immediately.

Customers may experience periodic events of discolored water. If you notice discolored water, please run the water for five minutes. If the discoloration is still present, please contact the Public Works Service Center at 919-775-8247.

To ensure you are notified in the event of an emergency in the future, please subscribe to Lee County Emergency Services' Code Red alert system. More information is available at [www.leecountync.gov](http://www.leecountync.gov).
