MATERIAL SAFETY DATA SHEET

DESCRIPTION

2 Cycle Lubricant

COMPOSITION

Mineral oil with additives to improve lubricating performance.

FLASH POINT

260°C (average)

VAPOUR PRESSURE

5mm Hg @ 20°C

SOLUBILITY IN WATER

Negligible

HANDLING

This material presents no significant hazard when used for the purposes intended.

It should be noted that all mineral oils are potentially harmful by prolonged and/or repeated skin contact and hence personal cleanliness is important.

EMERGENCY TREATMENTS

EYE CONTACT

Irrigate the eyes with copious quantities of water.

SKIN CONTACT

Wipe off excess and wash with soap and water.

INGESTION

Do not induce vomiting due to risk of aspiration. Obtain medical advice.

ASPIRATION

If there is any suspicion of aspiration (eg. during vomiting) obtain medical advice urgently.

FIREFIGHTING

Foam, dry chemical, water fog, or carbon dioxide.

Use water spray to cool fire exposed surfaces and to protect personnel.

HAZARDOUS PRODUCTS OF COMBUSTION

Fumes, smoke, oxides of sulphur, oxides of phosphorus, carbon dioxide carbon monoxide.

DISPOSAL

Dispose of in locally approved manner for mineral oil.
