

Commercial Plan Submittal Requirements

PLUMBING PLANS:

Plumbing plans with the following information must be provided as the information relates to the particular project:

Indicate all supply and waste piping on the plans for each floor.

Indicate roof drainage plan including secondary drains.

The number of water closets must be shown for each sex with their location indicated on each floor plan. Calculations must be shown for fixture distribution for each floor area.

Grease interceptors (as applicable to project) shall be provided and sized by the flow rate per minute.

All applicable UL/FM penetrating procedures used to maintain integrity of rated assemblies shall be detailed for each type of penetration. The penetration details must be exactly as tested by an approved testing laboratory or agency and they must include their system numbers.
